"Derma-Glow" Translucent Liquid Complexion Tint

"Derma-Glow" is a translucent tint in 3 life-like skin tone colors. Great for bringing out the natural tissue color in many ethnic skin tones. Available in natural, flesh & blush. Natural produces a suntan color excellent for use on a man's hands & face. Flesh re-creates a pink skin tone color in women, children & older people. Delicate and life-like with just the right amount of tissue color. Blush adds just a hint of natural color for that much desired no-makeup look.

"Derma-Tint" Liquid Powder Tints

"Derma-Tint" is a fine quality liquid tint containing powder and pigment suspended in a solvent base. This product restores natural tissue glow to all skin tones. The superior qualities of our new Derma-Tint emollients allow the powder and pigment to stay in suspension longer than other brands and requires less re-capping and re-mixing during application. Available in 8oz & 16oz please specify.
